

# TERMINAL SUPPLY CO.

---

## **Manufacturing – Wire Harness Assembly**

Applicants should have a high school education and a minimum of two years experience performing assembly of custom wire harnesses, cables and panels. Applicants should also have a wide-ranging knowledge of electrical components, experience working in and understanding quality control processes and the ability to work with speed and competence in a dynamic, growing and fast-paced environment. Applicants must be able to follow blue prints, electrical drawings and follow written and verbal instruction in building high quality product.

Compensation is commensurate with experience. Benefits include health and dental insurance, life insurance programs and a 401(k) plan. If you are interested in a manufacturing assembly position with Terminal Supply Company, please do not call, but rather send your cover letter and resume to [hr@terminalsupplyco.com](mailto:hr@terminalsupplyco.com) or fax to (248) 362-3682.
